

Coastal Bend COLLEGE

To all students,

In the interest of providing a safe and comfortable learning environment Coastal Bend College has modified their fall schedule in the following ways:

- All Coastal Bend College courses have a Blackboard course shell. Delivery of courses will be facilitated through your Blackboard courses.
- **Online courses** will be delivered in the online environment as scheduled.
- **Face-to-Face** move to remote learning
 - All lectures and labs will be taught through distance learning utilizing video conferencing technology. This will allow more personalized attention and interaction with the instructor. **The instructor will present their lectures and labs as normally scheduled, but instruction will be delivered remotely through video conferencing.** Students will login to the video sessions to attend the class and interact with the instructor through Blackboard. This will allow the College to provide the quality instruction students expect and deserve while maintaining social distancing for faculty and students. Blackboard login is explained in the New Student Orientation course.
- **Career and Technical Education Courses**
 - Lectures will be taught through distance learning utilizing video conferencing technology as stated above. The lab component will be taught on-site utilizing full COVID protocol as established by the CDC. For example, a welding class lecture would be delivered through video conferencing, but the lab would be taught on-site at CBC to ensure proficiency in the skills necessary for that subject area.

Coastal Bend COLLEGE

The well-being of our students, employees, and community are of paramount importance to us. At Coastal Bend College we are dedicated to your success and safety. For additional information and support contact studentsuccess@coastalbend.edu.

Respectfully,

Dr. Justin Hoggard, President
Coastal Bend College

Success Happens Here!
