Coastal Bend College’s workforce and customized & continuing education courses are **constantly evolving** to meet the demands of the Coastal Bend and Eagle Ford Shale industries.

Plus, with our small class sizes, outstanding customer service, and dedicated faculty and staff, you’re sure to get the hands on training you need to succeed. At CBC, we want you to have **HIRE expectations**. Our programs and trainings lead to great careers.

All CBC locations feature **state-of-the-art computer labs** and equipment, spacious classrooms, and the latest distance learning technology. It’s all part of our **commitment to student success**, quality training programs, and our South Texas charm.

CBC’s Oil & Gas Technology Division prides itself on offering a variety of college credit courses and programs that focus on safety, **hands-on training**, and the most current industry standards.

We are also committed to being an **oil & gas industry partner** through CBC’s Customized & Continuing Education Division. Our staff can customize oil & gas **safety** courses, **OSHA-10** courses, and even first aid/medic courses for your employees. Let us show you what CBC can do for you.

**Small town college.**
**Endless possibilities.**

CBC works.

For more information about Customized & Continuing Education at CBC, please contact Lillian Garza at (361) 354-2331 or visit www.coastalbend.edu/ce.

“I researched the heck out of all the oil and gas programs in the nation, and CBC looked the best to me. We get hands-on experience on simulators/equipment. I know I’ve made the right decision coming to CBC.”

-Bob Forbeck-Owens, CBC Student
