## What's Your Major?

### Academic Programs

The Texas Higher Education Coordinating Board designates the Associate in Arts and Associate in Science as collegiate degrees related to baccalaureate degrees in arts and science. At CBC, students may earn either of these associate degrees by completing planned curricula of freshman and sophomore academic courses. These are approved by the Coordinating Board and are transferable to senior colleges and universities in Texas. CBC maintains contact with these institutions to ensure that CBC academic courses are equivalent to those at four-year colleges.

### Workforce Education Programs

Workforce Education refers to the college's technical and vocational education programs. Workforce Education is any form of education, training or retraining which prepares persons to enter or continue employment in any recognized occupation. The primary responsibility for providing post-secondary Workforce Education in Texas has been given to community colleges. CBC accepts responsibilities for providing high quality Workforce programs tailored to meet the needs of people in its geographic area.

Workforce Education offerings at CBC include technical programs and others in the fields of business, industry, health and public services. To assure that these programs continue to provide relevant training, the college uses advisory committees. Each area of study has an advisory committee made up of professionals in the field who advise college officials in planning, conducting and evaluating programs.

For more detailed information go online to [www.coastalbend.edu](http://www.coastalbend.edu) to access our most current catalog.

### Admissions.

As an institution with an open door policy, Coastal Bend College welcomes individuals who meet one of the following standards for general admission: (1) graduation from an accredited high school, (2) possession of a Certificate of High School Equivalency based on the General Educational Development (GED) examination, (3) individual approval for interested parties who do not meet the requirements of 1 or 2 and who exhibit the aptitude, interest and motivation to profit from the course of study they propose to enter. Aptitude is demonstrated by passing an "Ability to Benefit" exam, interest and motivation through an interview with the vice president of instructional services. Students should review the website for testing requirements, transcripts, residency issues, and for information related to specific programs.

### Financial Aid.

Coastal Bend College helps make education affordable through grants, loans, and scholarships. All applications for assistance require the completion of the Application for Federal Student Aid which is available from any high school, the CBC financial aid office, or electronically from the U.S. Dept. of Ed. at the following URL: [www.fafsa.ed.gov](http://www.fafsa.ed.gov). Students seeking financial assistance should contact the CBC Financial Aid Office directly for details on application deadlines for grants, loans, and scholarships.

### Tuition & Fees.

Coastal Bend College is one of the most affordable public institutions in Texas. The college makes a distinction between in-district students, (those residing within the Coastal Bend College District), and out-of-district students, (those residing outside the college district). Out-of-State tuition is paid by non-Texas residents. Texas residents pay approximately \$1440 and out-of-state students pay approximately \$2640 per academic year. CBC offers quality at a bargain. Tuition and fees are published annually in the college catalog and are also available via the college website.

# Alice

## New Programs Go to Work for Alice.

### Radiologic Technology

Earn an Associate in Applied Science degree and prepare to take the American Registry of Radiologic exam to become a certified Radiologic Technologist through Coastal Bend College.

### Machinist

Train to be a machinist in a well-equipped machine shop lab. Get hands-on instruction on a variety of types of equipment and prepare to enter the workforce with a certificate or an Associate in Applied Science degree.

### Oil & Gas Technology

Train for a career in the petroleum industry. Learn about technology, exploration and drilling operations while earning a certificate or an Associate in Applied Science degree.

### LVN to RN Bridge & RN

This program is designed for LVNs wanting a fast track to RN and for students wanting to go directly into a Registered Nursing program. This means CBC's nursing program will be able to accommodate multiple points of entry and exit throughout varying stages of the curriculum. All students graduate with an Associate in Applied Science in Nursing degree.

### Drafting & Design Technology

Train to become a Drafting & Design Technologist in one of CBC's longest running and most successful programs. Students develop proficiencies in MicroStation's Suite including 3D Architecture, Civil and Mechanical Engineering alongside SDS/2, GIS, GPS and AutoCAD software. Program Certificate and Associate in Applied Science degree available.

### Professional Driver Training (CDL)

Train to become a licensed professional truck driver through the Continuing Education Department at Coastal Bend College and our training partner, International Schools. Students will become proficient in the operation of commercial tractor-trailer rigs, associated regulations and will graduate the 200 clock hour program with their Texas Commercial Driver's License (CDL).

### Continuing Education

Coastal Bend College's Continuing Education department offers literally hundreds of courses through classroom and online instruction. Go online and check out all the categories and program offerings. You'll see for yourself that saying we offer literally hundreds of courses is no exaggeration.

Coastal Bend College Continuing Education. Visit us on the web at [www.coastalbend.edu](http://www.coastalbend.edu) and click "Continuing Education." Or give call us at (361) 354-COED (2633) or 1-866-722-2838 ext. (COED) 2633 for more info.

According to the 2004 Community College Survey of Student Engagement, 89% of all CBC students rated their educational experience at CBC as Excellent or Good.

Coastal Bend College graduates get their four year university degrees with a 35% higher completion rate than their classmates that went directly to the university after high school.

## Welcome to Coastal Bend College.

Whether you enroll at CBC-Beeville, CBC-Alice, CBC-Kingsville, or CBC-Pleasanton, you'll find modern, computerized facilities where the student is the focus. Small classes, tutoring services, a caring and committed faculty and administration contribute toward an environment that encourages intellectual and social development. CBC will help you develop skills for success. Advisors and counselors will help you blend your talents with the field of study or career that best suits you. ● CBC strives to ensure that anyone who wants an education can get it. Scholarships, loans, work-study programs, and grants focus on your needs. Apartments, dormitories, class buildings, and parking are arranged in consideration of students with special needs. You will find a welcoming community comprised of individuals dedicated to helping you succeed. ●

Coastal Bend College offers the Associate in Arts degree; the Associate in Science degree; the Associate in Applied Science degree; and Certificates of Achievement in specialized workforce education (technical/vocational) fields. ● The Associate in Arts degree is designed for students planning to transfer to senior colleges and universities or for those seeking general education offered by the first two years of college. The

curriculum provides the foundation of a liberal arts education drawn from the humanities, fine arts, and sciences. The Associate in Science degree is also designed for transfer students, but the curriculum permits more specialization than that of the Associate in Arts degree. ● Students enrolled

in workforce education programs must have declared program majors toward Associate in Applied Science degrees or Certificates of Achievement. The Associate in Applied Science degree is awarded for successful completion of a two-year prescribed workforce education curriculum. The Certificate of Achievement is awarded for successful completion of a specialized curriculum in any of a number of technical or vocational fields. It is possible to earn an Associate in Applied Science degree and a Certificate of Achievement. Whatever your dreams and goals might be, Coastal Bend College can help you achieve them.

According to the 2004 Community College Survey of Student Engagement, 94% of the students responding to the survey would recommend CBC to a friend or family member.
