There are two kinds of lessons: Tutorials and Applications. After going through a Tutorial, please go through the corresponding Application. Then you can take the Mastery Tests to see how you do.

We ask that you spend at least one (1) hour in each section. You do not have to do all of the lessons in each section - there are too many to complete in one hour.

You will need to have a total of four (4) hours of preparation in PLATO before you are eligible to take the Accuplacer exam, if you are a first-time college student.

This preparation session will help you be more comfortable with the Accuplacer exam content.

This should then make you less nervous when you come in for your actual

Accuplacer exam.

So please spend as much time as you can reviewing the material in the PLATO program.

This is for your benefit.

If you want to spend more than the mandatory four (4) hours in PLATO, you are welcome to do so.
